# KX-6

## THATS NEW

We are proud to introduce the Krieghoff Model KX-6. A pure single barrel trap gun, the KX-6 features all the attributes of the KX-5 plus many refinements and new features. Available in 34" with choke tubes, the KX-6 has an adjustable rib which allows you to lower or raise the point of impact, a hallmark of Krieghoff trap guns.

A new feature of the KX-6 is that it cocks effortlessly on opening enabling the shooter to maintain concentration on the line. The KX-6's new ergonomic design makes opening the gun for loading easier and reduces recoil.

Controlled point-of-impact, a well known feature of all our trap guns, remained a primary concern in designing the new KX-6. The free-floating barrel expands lengthwise as it gets hot, so no matter how much you shoot, the point of impact remains where you set it and is not affected by heat expansion.

The KX-6 comes with an adjustable rib that allows you to adjust your point of impact (POI) from a 60/40 up to an 80/20 pattern spread. The free-floating adjustable rib can be adjusted up or down at the muzzle end by rotating the small knurled nut located below the front bead.

For quick target acquisition with reduced heat distortion the KX-6 has a ventilated free-floating rib. The trigger pull is easily adjustable.

### POINT-OF-IMPACT

The KX-6's fully adjustable rib and comb provide high flexibility in stock fit and point-of-impact adjustment.

### STOCK

Years of experience and intensive research of recoil forces result in the KX-6's ergonomic stock design which reduces perceived recoil to a bare minimum.

## SPECIFICATIONS AND OPTIONS

### BARRELS 34"

- Gauge: 12 Gauge; 3"
- Chamber is chromed
- Proofed for Steel Shot
- Choice of 3 steel chokes
- Choke tubes (CT)
- Choke tubes available: C, SK, IC, LM, M, LIM, IM, F, SF
- Titanium chokes tubes (same constrictions) available as an upgraded option
- 12-8 mm ventilated free-floating rib

### SIGHTS

White pearl front sight and brass center bead

### ACTION FINISH

Black nitro carbonized, providing optimal durability and an elegant matte finish

### TRIGGER

- Trigger position adjustable for grip length
- Adjustable Trigger pull (3 1/4 - 3 3/4 lbs) and creep
- Preset by factory at approximately 3-1/2 lbs.
- Optional Release Trigger available as an upgrade option

### STOCK

- Length of Pull 14-3/8". Drop range: 1-1/4" - 1-5/8"
- Monte Carlo buttstock with fully Adjustable Comb (drop & cast)
- Ergonomic stock design for reduced recoil paired with attractively figured European walnut wood

### CASE

All KX-6s are delivered in a fitted case

### WEIGHT

Approximately 8-3/4 lbs.

Fig.: new ergonomic stock design

### ACTION

The new KX-6 action features a long lasting black nitro carbonized finish for optimal durability and elegant appearance.
